## PROFILE

---

Ikechukwu is a graduate of Industrial Physics with Renewable Energy from Covenant University, Ogun State, Nigeria. Having worked in different sectors including the power sector and in different capacities, covering technical and administrative roles, he is primed for new opportunities in the energy, oil & gas and power sector. He demonstrates a willingness to learn and a creative mind, which has enabled him to quickly adjust to new environments and sectors.

## EDUCATION

---

-  **B.Sc. (Second Class Upper), Industrial Physics with Renewable Energy, Covenant University, Ogun**
-  **WASSCE, Living Word Academy, 2015**
-  **First School Leaving Certificate, Living Word Academy, 2009**

## WORK EXPERIENCE

---

- ❖ **NYSC Associate, Federal Ministry of Sports and Youth Development, Abuja; November 2019 – October 2020**

As an NYSC Associate, I worked in the Planning, Program and Implementation Department of the Ministry. Particularly, I have:

- I worked on the organization and verification of data from other departments to confirm data integrity and suitability for planning; and
- I assisted in the development of plans and strategies for program implementation of the forthcoming National Sports Festival in Benin in December, 2020.

- ❖ **Systems Analyst Intern, IPI Power Tech Limited, Lagos; February 2018 – July 2018**

As a Systems Analyst, I have:

- Determined the root causes of power system failures on power sites.
- Provided corrective actions through investigations and analyses to prevent future failures
- Observed construction methods and installations of power systems, conducted inspection and testing processes to maintain consistent power generation.
- Maintained/repaired existing power systems including AC-DC Generators, Inverter Batteries & Solar Batteries.
- Assisted in the installation of enclosures, cabinets and hybrid power systems.
- Conducted regular system checks on telecommunications infrastructure sites.

## SKILLS

---

- Complex problem-solving skills and a methodical mind;
- Basic knowledge of control systems;
- Strong interest in technology;
- Communication skills;

## HOBBIES

---

- Sports;
- Travelling; and
- Reading

## REFEREE

---
